Do You Know What We Know?

Finally, There's an eWaste Monster On Your Side!

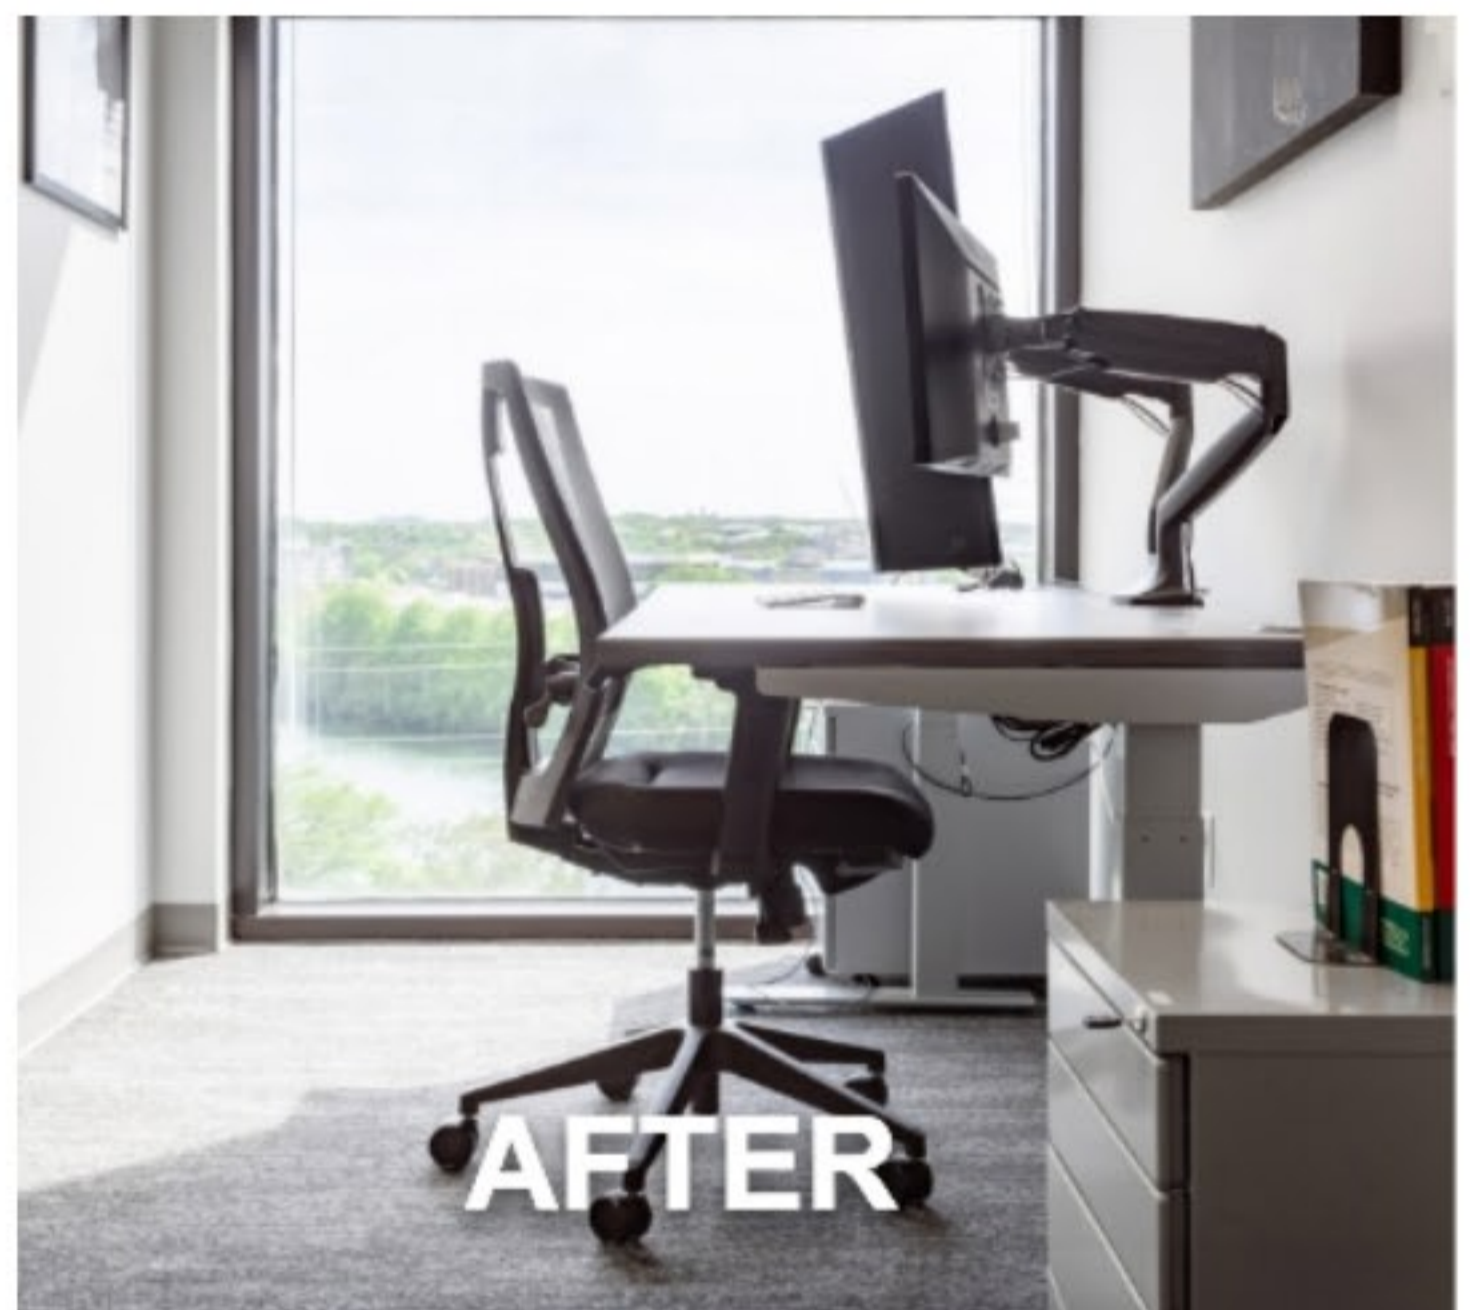

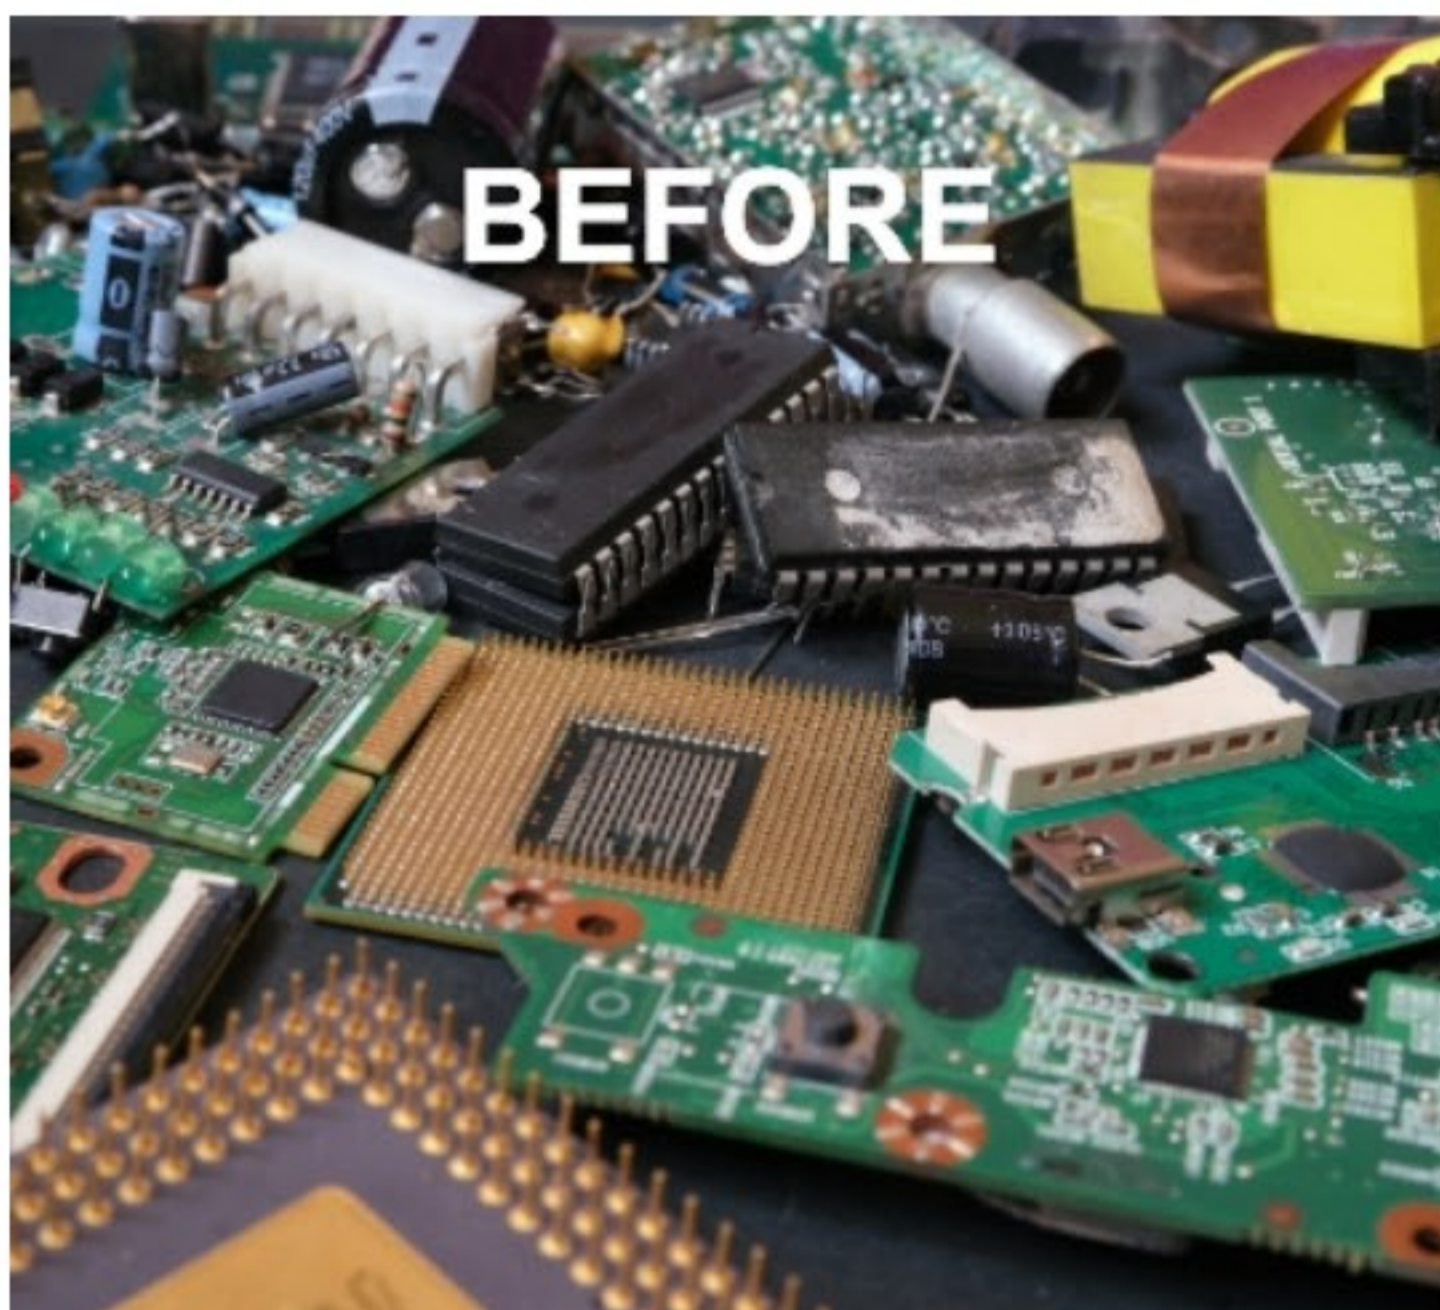

We are that eWaste monster that eats your problems, not your sleep—turning old equipment disposal headaches into complete peace of mind.

Shredding & eWaste Disposal

Got sensitive documents or outdated tech equipment collecting dust? Let us handle that! Our secure shredding and certified eWaste disposal services protect your data while being environmentally responsible.

What Tech Team Solutions Does for You:

- We provide NAID AAA-certified document destruction for peace of mind
- We offer secure hard drive destruction with certificates of compliance
- We ensure all electronics are salvaged, recycled, or disposed of responsibly
- We offer scheduled pickups or on-demand service for YOUR ultimate convenience
- We help you stay compliant with regulation and IT asset disposal policies

Who We Are: TechTeam Solutions is part of the Total Office Solutions family of “Anywhere” companies and is a leading technology moving specialist with over 40 years of experience safely relocating IT infrastructure. We handle everything from single PC moves to complete data center relocations with zero downtime as our goal.

What We Do: We provide complete technology services including PC disconnect/reconnect, server relocation, network infrastructure moves, cable management, equipment installation, secure data destruction, and e-waste disposal for businesses of all sizes across local, regional, and national markets.

Let Our eWaste Monster Eat Your Problem.
